

New England Collection

Drawing inspiration from the soft hues, pale timbers and traditional methods of construction of Cape Cod houses, New England Pinelodges offer an eye catching alternative to standard timber lodges with their high cathedral ceilings, distinctive windows and glazed gables.

Maintenance and running costs are kept to a minimum with durable Siberian larch cladding. High levels of insulation, double glazing and central heating are all included as standard.

New England kitchens are attractively designed, making maximum use of space and providing generous work areas. We offer a choice of cabinets, worktops and tiling so that you can create a kitchen to your own taste. A quality oven and hob are provided and you can choose whether to have freestanding appliances or upgrade with our Integrated Appliance Pack.

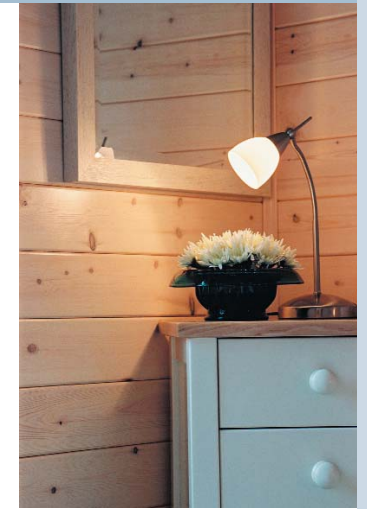

A dining area adjacent to the kitchen provides a comfortable place to enjoy eating and socialising. Dining furniture, which beautifully reflects the New England style is offered within our furnishing package.

Internal walls are timber clad in natural pine. We can also offer 'white vernis' which is specially prepared white, knot-free cladding.

Bedrooms are generously proportioned. En-suite bathrooms and walk-in wardrobes feature in most models. Coordinating wardrobes, beds and cabinets are all available in a New England styling to complement the lodge.

Low energy light fittings are a standard feature throughout the lodge.

Attractive detailing and practical fittings make the bathroom and en-suite shower rooms a delight to use.

Fitted bathroom furniture provides generous storage space.

New England lodges are available in a variety of pastel colours as well as a natural larch finish.

These pastel colours can be maintained by periodic restaining or left to fade away to 'bleach out' to a soft silvery hue.

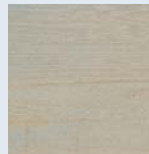

Doors and windows can be offered in softwood or uPVC (woodgrain uPVC at additional cost).
