

Skyline Pinelodges

Designed with a contemporary feel, the principle feature of Skyline lodges is a spectacular rooflight which floods the living area in natural light. On a clear night it provides your very own observatory to the stars.

Tall windows maximise views and large areas of glazing exploit light and warmth from the sun.

External cladding is either traditional Scandinavian redwood or low maintenance Siberian larch.

Skyline kitchens are imaginatively designed, making maximum use of space and providing generous work areas. We offer a choice of cabinets, worktops and tiling so that you can create a kitchen to your own taste. A Smeg oven, hob and integrated microwave are standard fittings in this lodge and you can choose whether to have freestanding appliances or upgrade with our Integrated Appliances pack.

The dining area, adjacent to the kitchen provides a comfortable space to enjoy eating and socialising. A stylish dining suite is offered within our furnishing package.

Internal walls are timber clad in natural pine. We can also offer 'white vernis' which is a specially prepared white, knot-free cladding.

Contemporary detailing and practical fittings make the bathroom and en-suite shower rooms a delight to use.

Spacious bedrooms have superb mirrored wardrobes with co-ordinated bedside cabinets and chests. Matching beds are available within our optional soft furnishing package.

Low energy light fittings are a standard feature throughout the lodge.

Skyline
1 Bedroom Lodge
6.8 x 6.1m (22 x 20ft)

Skyline
2 Bedroom Lodge
8.5 x 6.1m (28 x 20ft)

Skyline
